ABOUT ME

As a detail-oriented Junior Full Stack Web Developer, I bring a skill set in both front-end and back-end development to the table. My proficiency in crafting responsive web applications is grounded in my knowledge of HTML, CSS, JavaScript, and PHP, complemented by my expertise in contemporary frameworks such as React.js and Laravel. My skill set extends to designing and implementing RESTful APIs, database integration, and optimizing user experience for seamless interaction.

My problem-solving abilities are matched by a dedication to continuous learning, ensuring that I remain at the forefront of industry advancements. I am adept at both team collaboration and independent work, demonstrating a flexible approach to project management. My passion lies in developing innovative and scalable web solutions that not only captivate users but also drive operational efficiency.

WORK EXPERIENCE

MULTIMEDIA-NET

Kumanovo
Jun 2019 - Present
